SUMMARY

UI Developer with 5 years of experience in implementing static UI designs and translating UX designs into responsive, visually appealing web interfaces. Proficient in Angular with 2 years of hands-on experience and basic knowledge of React. Skilled in developing single-page applications (SPA) with a focus on responsive design, usability, and performance. Adept at turning high-fidelity designs from tools such as Figma, Sketch, and Adobe XD into pixel-perfect and user-centric web pages.

EXPERIENCE

UI DEVELOPER

Amzur Technologies | Visakhapatnam, Andhra Pradesh | November 2019 – Current

- Designed intuitive UX flows and wireframes using Figma and Adobe XD, ensuring seamless user experiences across web applications.
- Designed and developed responsive, scalable web applications using Angular 12+ and TypeScript, improving the user experience and functionality for over 100k users.
- Ensured websites were fully responsive and optimized for mobile, tablet, and desktop devices, using media queries and flexbox techniques.
- Applied WCAG 2.1 standards for accessibility, enhancing navigation and usability for users with disabilities.
- Performed manual and automated accessibility testing using tools such as Lighthouse and WAVE to detect and fix accessibility issues.
- Improved keyboard navigability and screen reader support, enhancing the overall accessibility of complex UI components.
- Optimized front-end performance through image optimization, code splitting, and lazy loading.
- Participated in Agile workflows, ensuring timely delivery of static UI designs and collaborating with designers and developers during sprints.

Key Achievements

- Spearheaded a company-wide initiative to standardize UI components, improving design consistency across projects.

CERTIFICATIONS

- UI & UX Assessment – LearnTube

SKILLS
